

SUBJECT: New TECO 270 Bike motorbike tyre changer

Dear Customers,

We are pleased to inform you that we will be introducing a new model in our tyre changer range dedicated to motorbike, motocross, scooter and quad wheels.

The new **TECO 270 Bike** model will offer great versatility and robustness and is aimed at tyre specialists who demand the best in technology without compromise.

Eager to offer you an excellent tyre changer, we started from the frame of the already well-known car tyre changer. This guarantees the robustness and reliability required to work with great precision on all types of motorbike wheels, which today are increasingly more technological than in the past.

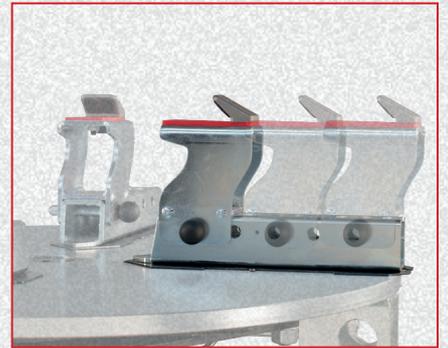

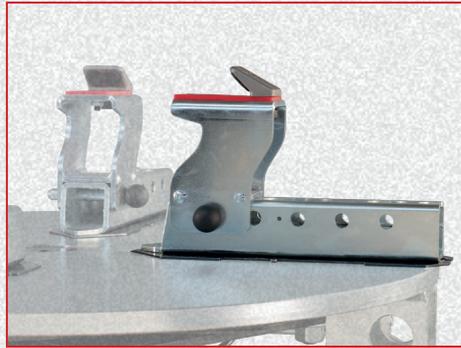

Great attention has been paid to the details that characterise this new tyre changer, which will allow us to offer a tyre changing service of the highest quality

Let's have a look at them:

The new **TECO 270 Bike** features a dedicated motorbike bead breaking blade with plastic protection included to safeguard the rims and not to scratch them.

The 4-jaw turntable plate is completely **NEW** and allows great versatility when working with rims from **4" up to 26"**

The clamping system is equipped with plastic protections to avoid scratching the rims.

The accessories developed for this new tyre changer will ensure total coverage of all motorbike wheels on the road.

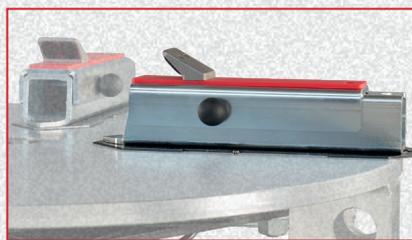

For **HIGH-PROFILE** wheels or with **PROTRUDING SPOKES**

8-11100461 RACING BIKE TURNTABLE JAW KIT 8"-26"

For **QUAD** wheels

8-11100462 ATV TURNTABLE PLATE JAW KIT 5"-18"

Removable platform for small wheels for an efficient bead breaking at all times

8-11100463 REMOVABLE PLATFORM FOR BIKE WHEEL

The release of this new model is imminent. As of **November** it will be included in the price lists.

The available versions are as follows:
