PROADAS and Teco 990: The Perfect Combination

N. 16 19/11/2025

We are pleased to inform you that the **new software update for the PROADAS calibration system and Teco 990 wheel aligner is now available.**

The new software allows you to position the PROADAS system using only the wheel aligner cameras, in a simple and quick manner, in accordance with manufacturers' requirements.

You can download the update free of charge by connecting the equipment to the Internet:

- ▶ Release 28 PROADAS
- ▶ Release 02.04.00.27 Teco 990

The combination of PROADAS and Teco 990 enables workshops to offer a **comprehensive and accurate calibration service**, reducing working times and increasing the quality of the intervention.
