

**SUBJECT: TECO 830 - PC and frame grabber board spare parts phase out and availability of the new transformation kit for 8-camera aligners**

Due to the unavailability of the PC and the acquisition board (frame grabber) spare parts, caused by the obsolescence of electronic components, the following transformation kit is now available to replace them:

**8-34100030 TRANSFORMATION KIT FOR ALIGNERS 8CAM-OLD / 8CAM-NEW**

This P/N completely transforms the aligner, bringing it to the version currently in production.

Aligner models involved and transformation performed, through the P/N 8-34100030

**Teco 830 → Teco 840**

The transformation kit includes the following parts:

- PC with Windows 10 IoT operating system.
- Electrical system.
- Hardlock.
- Ethernet switch .
- Left and right sides of the measuring beam, with installed cameras and electronic boards.
- Electrical wiring.
- Installation instructions

We remain at your complete disposal for any further clarifications.
