

OGGETTO: WHEEL ALIGNER DATABANK UPDATE 2022

As every year, we confirm that the databank update included in the price list will be soon available.

Generally:

- all databank updates and software upgrade kits that will be sent from February on will feature database 2022
- all the wheel aligners produced with serial number 2022 will already feature database 2022 (T-Check included)

For a better understanding, a detailed schedule is provided below for the introduction of **2022 databank updates**:

Clampless wheel aligners:

- code 8-35100069 - **Teco T-Check** databank - available from 02/2022
