

## SUBJECT: PROADAS COVERAGE

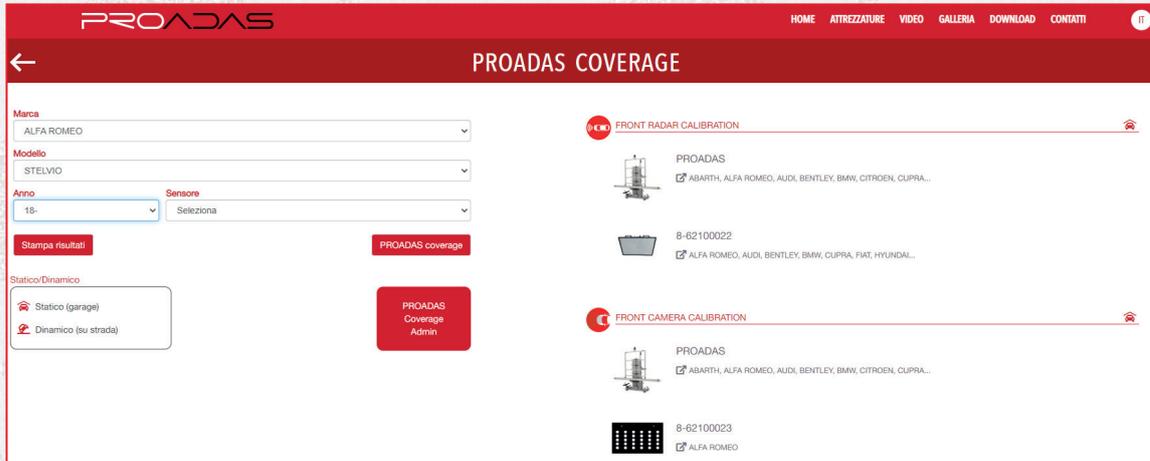

We would like to inform you that the new PROADAS COVERAGE application has been released on PROADAS website.

Its function is to facilitate the identification of the equipment required to perform a calibration on a specific vehicle within the PROADAS database.

Under the EQUIPMENT section of PROADAS website, click on the PROADAS COVERAGE LINK icon to view the application page.

### PROADAS COVERAGE LINK

To access it, it is necessary to be registered in the User Area of Teco website. If already registered, you can use the same credentials. This tool is intended for Nexion sales and service network, agents, branches and dealers.

Press the "Print Results" button to print a file with the results of the selected search.

Finally, by pressing the "PROADAS coverage" button, it is possible to print out the PROADAS database coverage
